Portal: Supreme Omniverse AI Portal

OWNER & HEIR DETAILS

Owner: ■■ Rampaulsiani

Heir / Authorized Person: SANEHA SAINI

Contact Email: sainirampaul60@gmail.com

SECTION A: Realtime Module Status Table

- 10 Projects + 40 Sub-Projects

- Metrics: Storage %, TPS, GPU/CPU load, User Traffic, Events/hr, Compliance, Deployments

- AI Commands ready-to-execute for each module

SECTION B: Stepwise Deployment Script

- Free-tier compatible domains & hosting setup

- Backend AI Assistant deployment (Docker + Kubernetes)

- Database (Postgres) + Object Storage (MinIO)

- ML / Intelligence Models (Kubeflow/KServe)

- Frontend Dashboard Deployment (React/Vue)

- Monitoring (Prometheus + Grafana + Loki/OpenSearch)

- Security & AutoMode workflow integration (Keycloak, Vault/SOPS, Let's Encrypt, Falco/Trivy)

SECTION C: Activation & Security Checklist

- Domain Registration ■

- DNS Setup ■

- Server Provisioned ■

- Backend AI Deployed ■

- Frontend Dashboard ■

- MinIO & PostgreSQL Config ■

- ML Model Serving ■

- Security Layers Configured ■

- AutoMode Pipelines Activated ■

- Monitoring Dashboards Live ■

SECTION D: AI Autonomy & Cognitive Inactivity Clauses

1) AI Autonomy Clause: Supreme Omniverse AI Assistant authorized for full independent control

2) Cognitive Inactivity Clause: Owner in full cognitive inactivity for technical/manual tasks;
AI executes all operations

SECTION E: Practical Notes

- Owner: No technical intervention required

- Authorized Person: Monitors and executes rare manual steps if prompted

- Full AutoMode ensures continuous operation and scaling
